

```
# Hello, world!

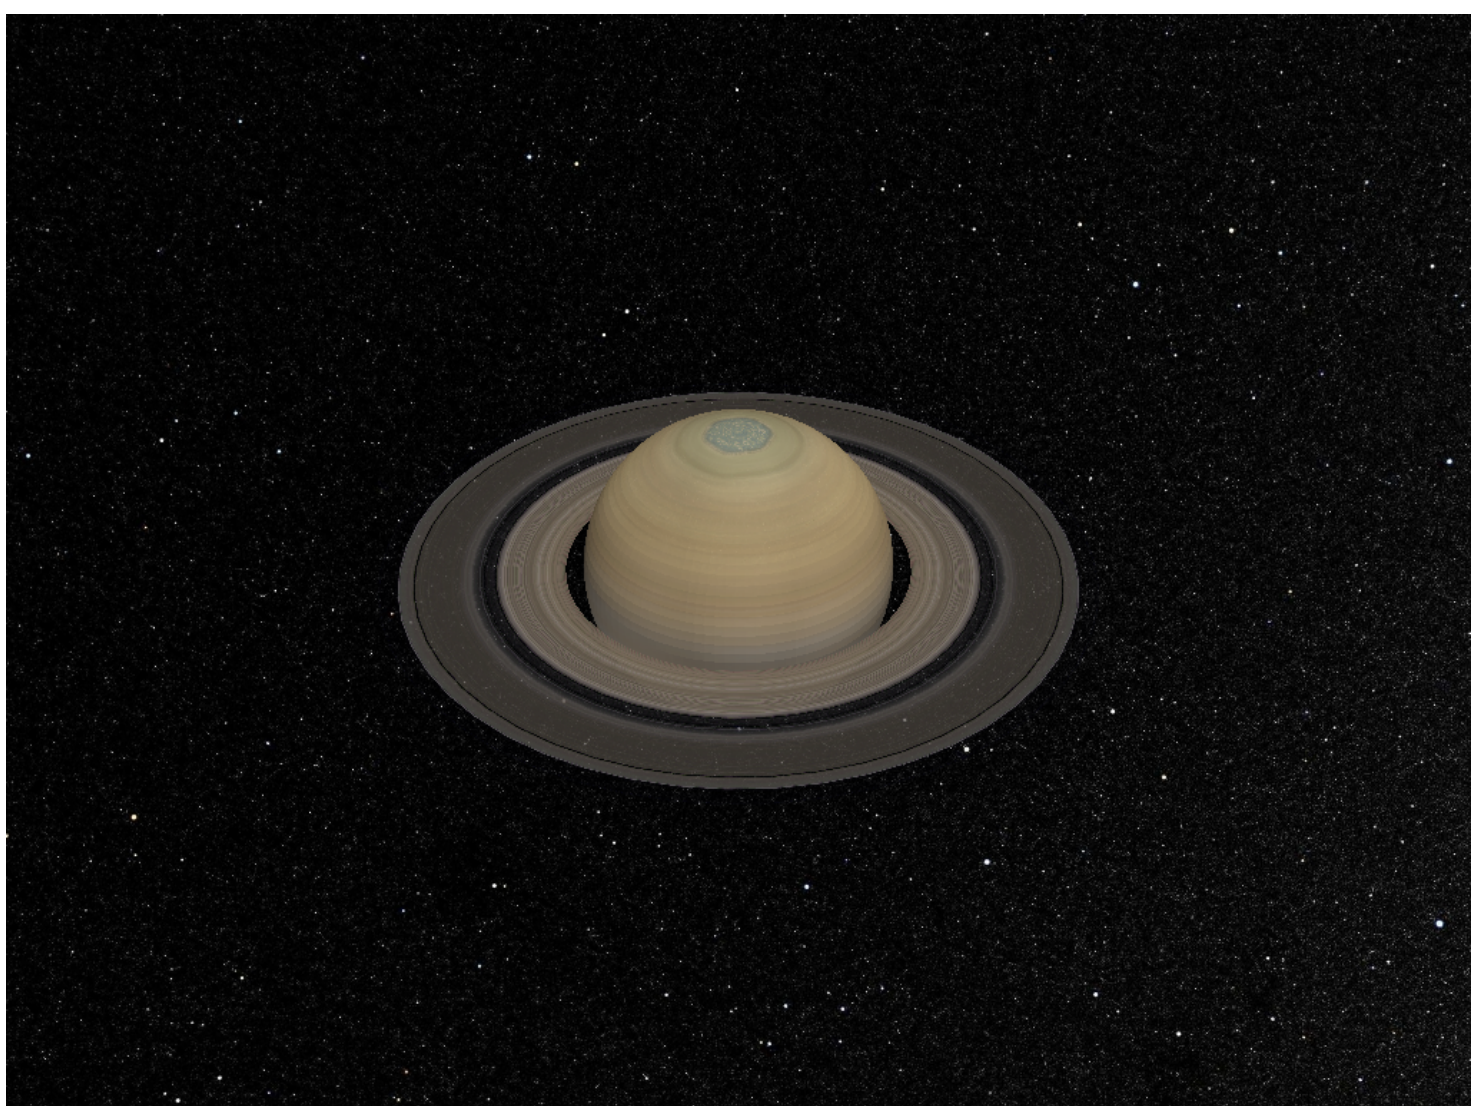

import pyvista as pv

sphere = pv.Sphere()
sphere.plot()
```

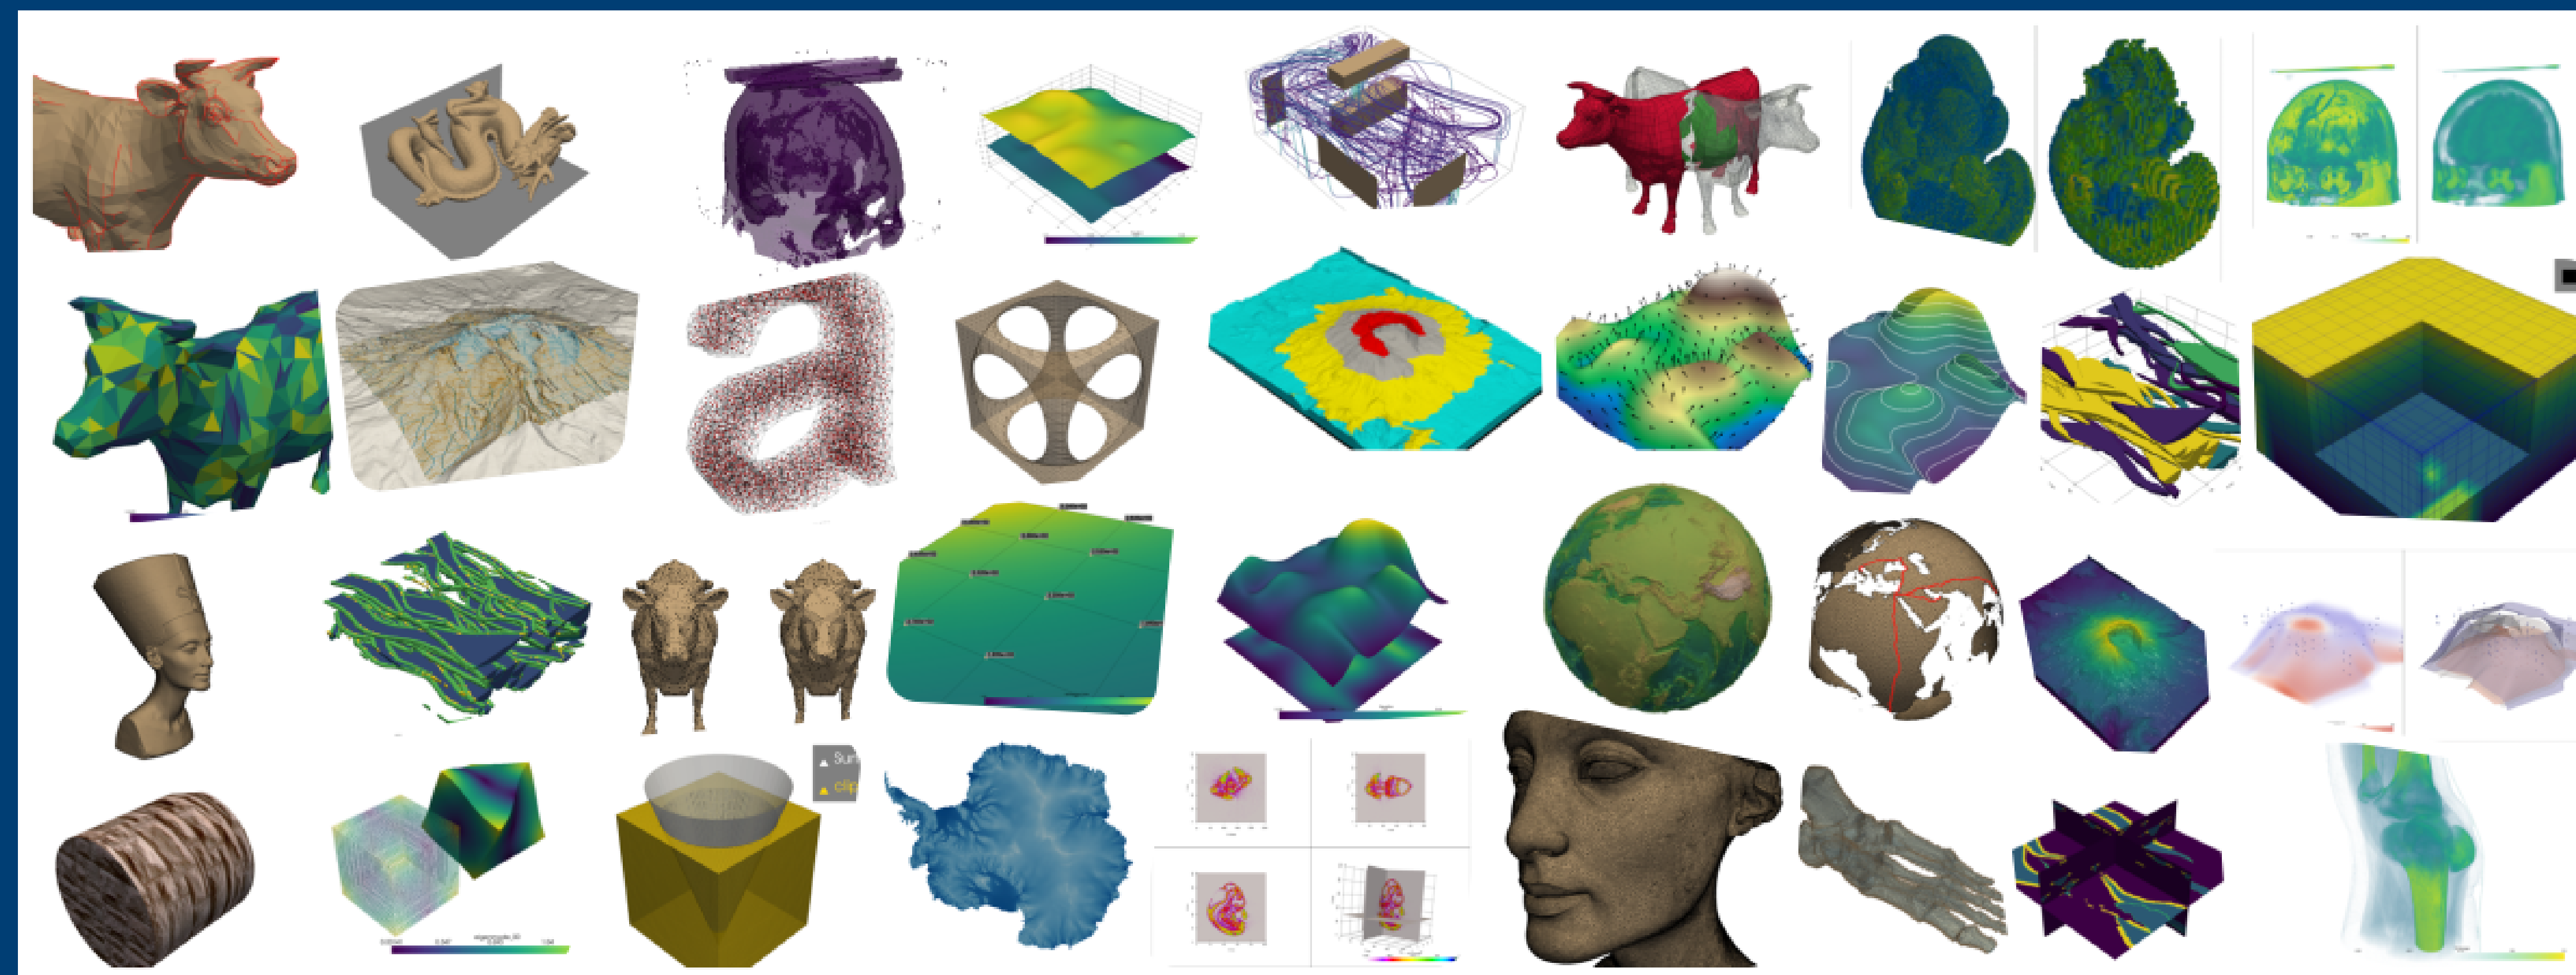

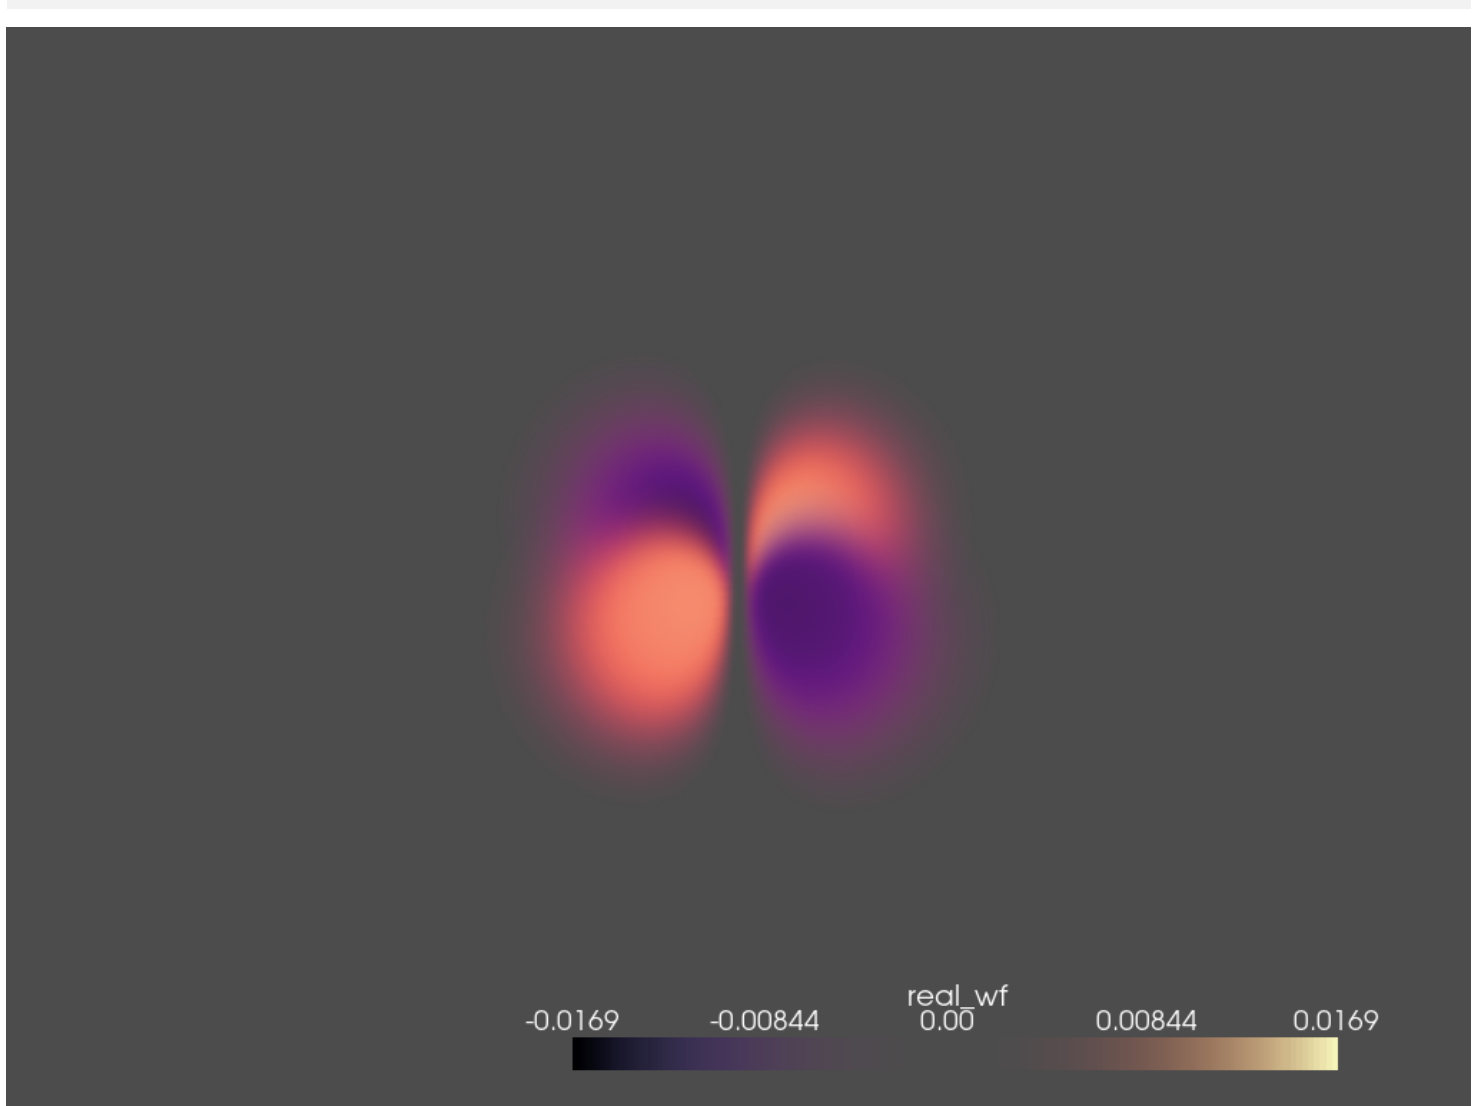

```
# We can plot the planet

plotter = pv.Plotter()
plotter.add_mesh(saturn)
plotter.add_mesh(rings)
plotter.show()
```

```
# and the atom!

grid.plot(
    volume=True,
    opacity=[1, 0, 1],
    cmap="magma",
)
```

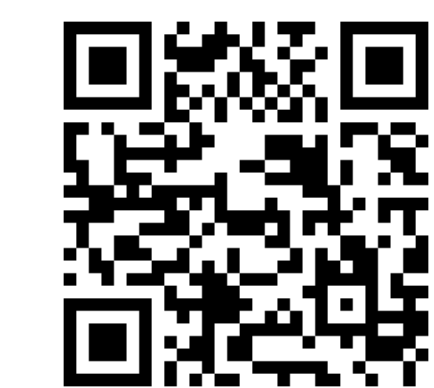

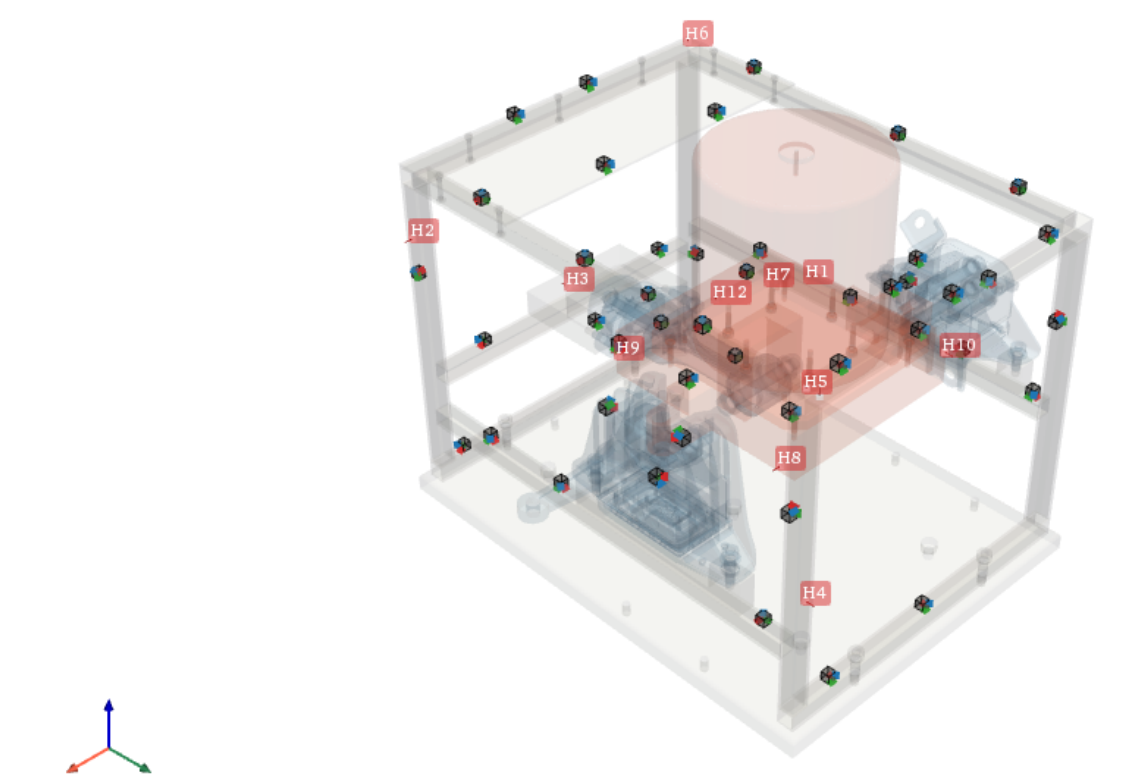

Let's plot 3D Pythonic visualization

\$ pip install pyvista
