

```
# We can plot planet.

plotter = pv.Plotter()
plotter.add_mesh(saturn)
plotter.add_mesh(rings)
plotter.show()
```

```
# And also can plot atoms!

grid.plot(
    volume=True,
    opacity=[1, 0, 1],
    cmap='magma',
)
```

Let's plot 3D **Pythonic** visualization

\$ pip install pyvista
