

Hello world of PyVista
import pyvista as pv

sphere = pv.Sphere()
sphere.plot()

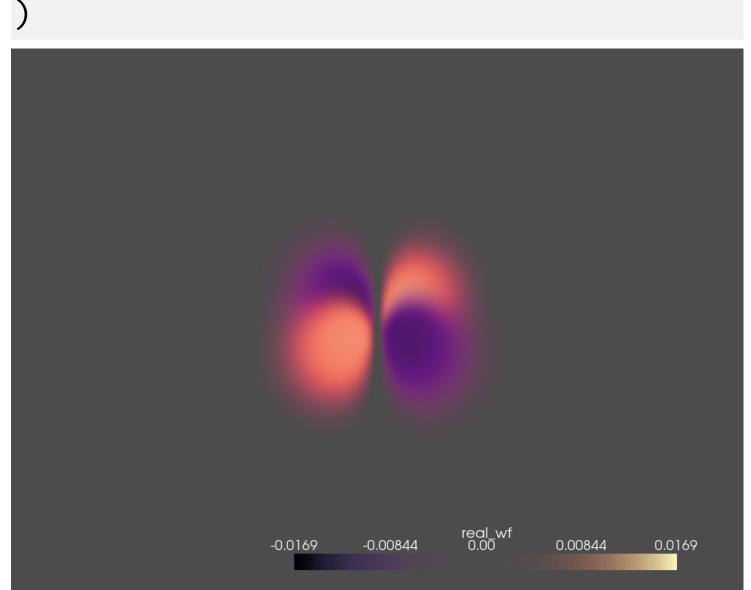

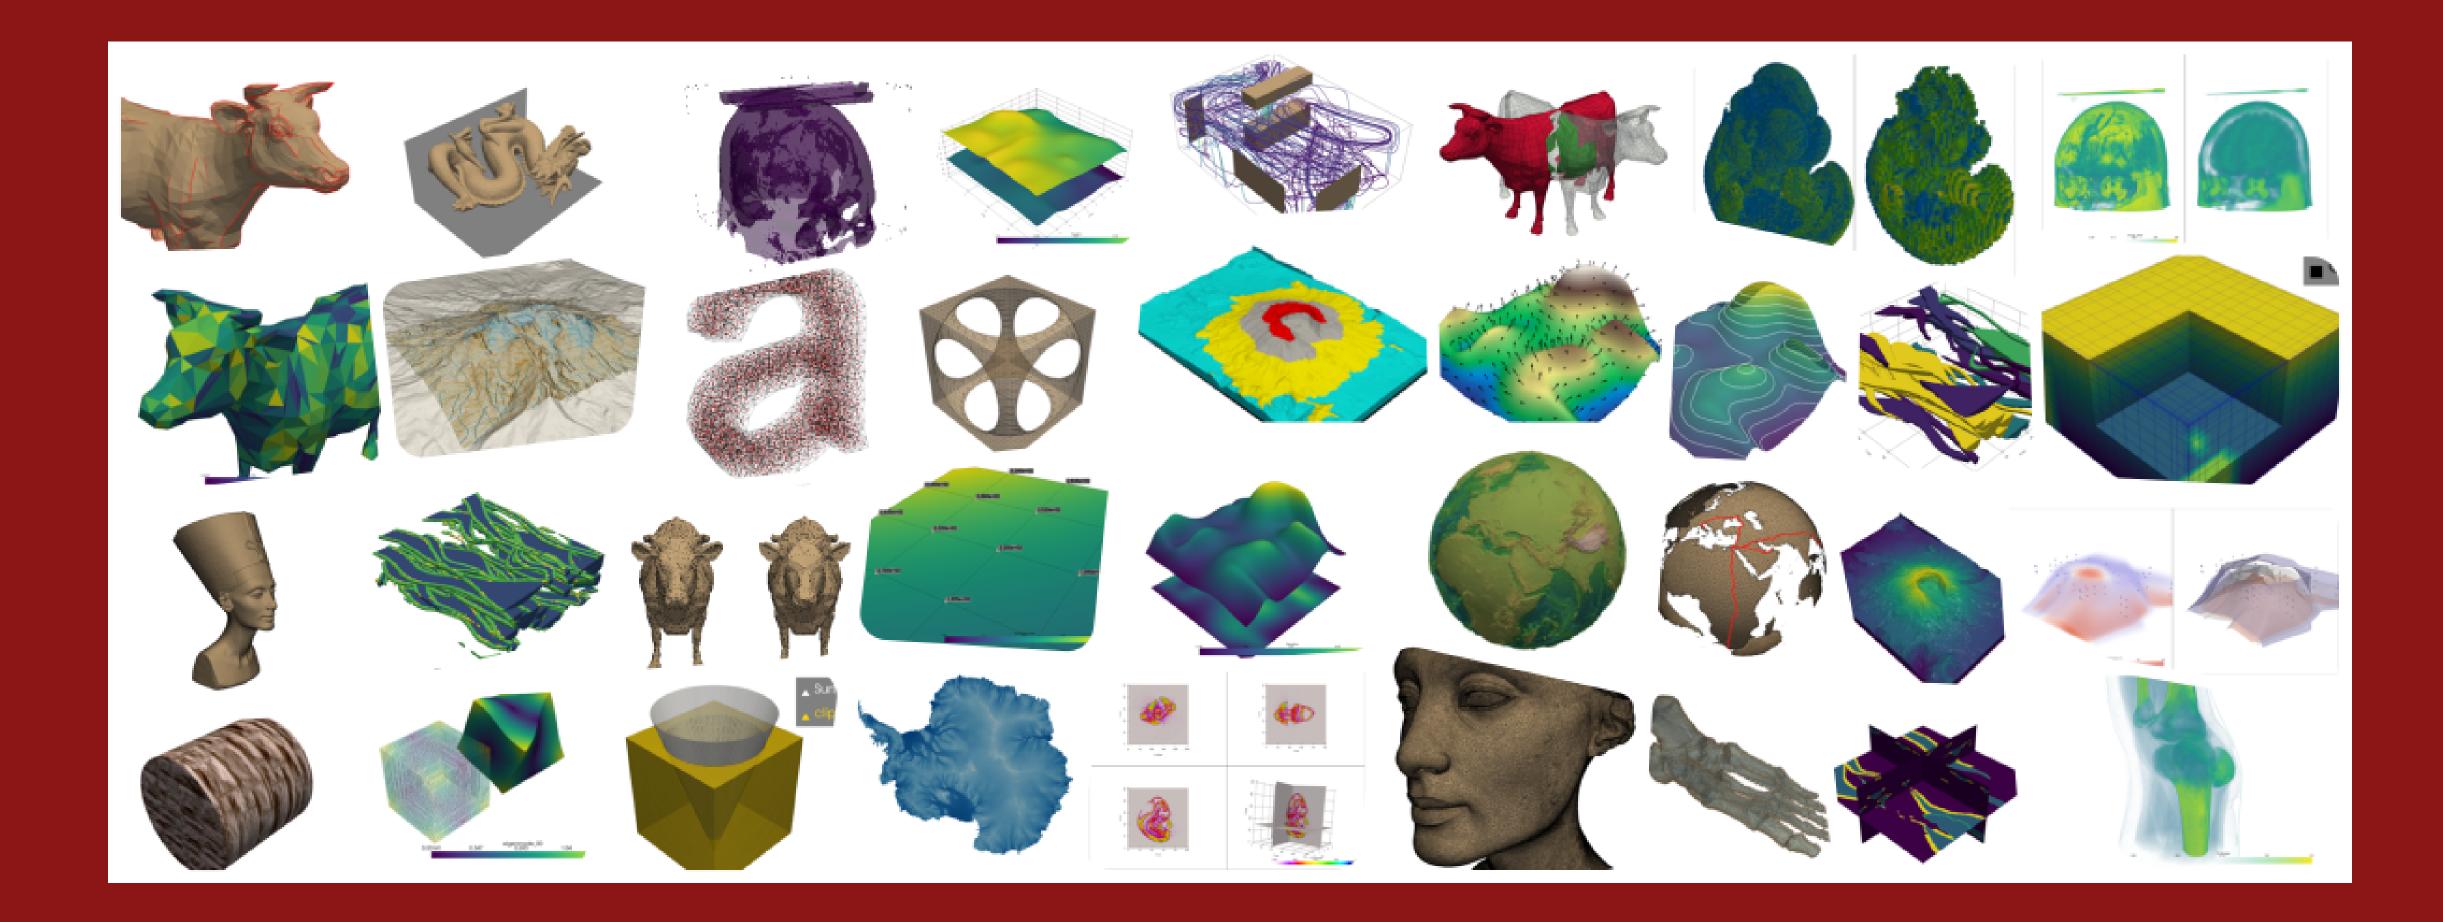

We can plot planet.

plotter = pv.Plotter()
plotter.add_mesh(saturn)
plotter.add_mesh(rings)
plotter.show()

And also can plot atoms!
grid.plot(
 volume=True,
 opacity=[1, 0, 1],
 cmap='magma',
)

Let's plot 3D **Pythonic** visualization

\$ pip install pyvista
