Writing Posters with Markdown

To some extent, with markdown package

- ► (Nested) bullet and numbered lists
- ► Text formatting (*italic*, **bold becomes italic** + **alerted**)
- ▶ Redefine #### to start a block with title and — to end the block
- ► *Compile with* –shell-escape (Overleaf does this already)

Caveats

- ► Nothing too complicated!
- ▶ No verbatim or fragile stuff!
- ► No #and _ characters!
- ► (I used \texthash and \textunderscore)
- ► Alternatives: Pandoc, wikitobeamer

Overview

- ► This is the template I created for my poster presentations. [?]
- ► You can provide an optional \footimage. [?]

Options

► It's based on beamerposter, so you can change some options:

size a0, a0b, a1, a2, a3, a4

orientiation landscape, portrait

scale a decimal number to scale the fonts

Colour Themes

- ► I've included some colour themes, using the colour palettes from http://colourlovers.com
 - ComingClean (current theme)
 - Entrepreneur (light blue + grey)
 - Conspicious (a bit garish!)

This is a sample

- One, two, pick up my shoe
- Three, four, shut the door
- ► Five, six, pick up sticks
- ► Seven, eight, lay them straight
- Nine, ten, a big fat hen
- One, two, pick up my shoe
- ► Three, four, shut the door
- Five, six, pick up sticks
- Seven, eight, lay them straight
- ▶ Nine, ten, a big fat hen

This is another sample

Some maths material

$$A = U \times S \times V^{T} \sigma = \frac{x \times y}{\sqrt[3]{\alpha + \beta}}$$
 (1)

Figures and images

Figure: An exemplary image

pipeTables and tableCaptions

Right	Left	Default	Center
12	12	12	12
123	123	123	123
1	1	1	1

Table: Demonstration of pipe table syntax.

This is a sample of a wiiiide column

- One, two, pick up my shoe
- ► Three, four, shut the door
- ► Five, six, pick up sticks
